# GREAT BARRIER REEF

*The warm saline waves that crash onto the white sand of Australia's Eastern coast are also fortunate enough to lap around the great technicolour coral canyons that manifest below the surface. Indeed, the Great Barrier Reef is one of the seven wonders of the natural world and viewing it from a greater distance, you can understand why. It is larger than the Great Wall of China and the only living thing on earth visible from space.*

*Within the reef's awe-inspiring mass is a network of small and intricate habitats and organisms. It is these dark corners, deep drop offs, underwater tunnels and caves which are very cleverly portrayed in this design by Moorcroft Designer Vicky Lovatt. Among the coral setting appear angel fish, guppies, sea stars, crabs, corals and molluscs which all silently bob, swim and glide around their beautiful underwater home.*

*Each Great Barrier Reef vase will be "marked" with the following commemorative Angel Fish back stamp.*

*This piece is available to order immediately and it will be either a Limited Edition or a Numbered Edition. If a Limited Edition, it will be available until sold out and if a Numbered Edition, it will be available until Vicky finishes the last Event in Australia on Saturday 21st June, 2014.*
